BRAND SYSTEM V2.0

THE BRAND SYSTEM.

Neo-brutalist. Plain-spoken. Built to be reused. Every brochure, deck, social card, web page and PDF follows this one system.

SINGLE SOURCE OF TRUTH

ANDOVER, HAMPSHIRE • 2026

WHAT THE BRAND SOUNDS LIKE

LIKE A TECHNICIAN WHO'S FIXED BUSINESSES FOR **THIRTY YEARS.**

Plain-spoken, results-led, no hype. Not a startup. We lead with the problem or the number, then the fix. The positioning line:

**LESS HYPE. MORE PHONES
ANSWERED. MORE ADMIN GONE.**

VOICE RULES

- | | | |
|----|--|--|
| 01 | Short, declarative sentences | One idea per line. Specifics over adjectives. Busy people appreciate brevity. |
| 02 | Plain British English | No corporate filler. No “leverage”, “synergy” or “solutions-driven”. |
| 03 | Lead with the problem or the number | Then the fix. Proof before promise. |
| 04 | Honest about limits | We say what AI can't do, on purpose. It builds trust and pre-empts objections. |
| 05 | Punctuation stays minimal | Em dashes sparingly. Never exclamation marks. |

ONE CORAL. ONE SYSTEM.

COLOUR PALETTE.

Consolidate everything to these values. Older social cards that run a brighter orange-red migrate to coral **#CD5C3C**.

**#CD5C3C****Coral**

Primary accent. Headline accents, bars, numerals, CTAs.

**#E8DCC8****Cream**

Primary text on dark. Display headings.

**#2C2C2C****Charcoal**

Base background.

**#1A1A1A****Ink**

Deep panels, cards, text on coral.

**#C8D8D0****Sage**

Secondary accent only. Use sparingly.

**#CFC6B6****Warm grey**

Body text on dark.

**#8C8880****Muted**

Mono labels, captions, secondary detail.

**rgba 232,220,200****Hairline / Grid**

.10 for dividers, .035 for the background grid.

Usage: Coral is for large display and accents only, 24px and up, bold. Never body copy — it fails contrast at small sizes on dark. Body is warm grey or cream. On coral bars, text is ink and stays bold and large.

Headline rule: cream by default, exactly one phrase in coral per headline.
Never colour the whole headline.

HOW THE PIECES SIT TOGETHER

LAYOUT PRINCIPLES.

- **Background grid**
Faint two-axis grid over charcoal, ~56px cells at 3.5% opacity. Always present, never loud.
- **Coral left bar**
A 5px coral vertical bar to the left of primary headlines.
- **Full-bleed coral bars**
Edge-to-edge coral bands with ink text for section breaks and CTAs.
- **Negative space**
Let headlines breathe. Crowding kills the look.

Primary: coral fill, ink text, 2px ink border, hard offset shadow that collapses on hover. Secondary: cream outline, inverts on hover. Visible coral focus ring always.

ACCESSIBILITY

—	Coral is large-and-bold only	24px+ and bold. Body stays warm grey or cream. Meets WCAG AA on body text.
—	Visible focus rings	Every interactive element. 2px coral outline, 2px offset.
—	Respect reduced motion	Honour prefers-reduced-motion. Disable the hover translate and transitions.

NON-NEGOTIABLE

| DO & DON'T.

DO

- + Keep every corner square. Zero radius.
- + Use flat colour only.
- + Use hard offset shadows in coral or ink.
- + Keep borders 2px and consistent.
- + Colour one phrase per headline coral.
- + Protect negative space.
- + Lead with the problem or the number.

DON'T

- × Round corners, blur shadows, or add gradients.
- × Colour a whole headline coral.
- × Use coral for body text.
- × Crowd the layout.
- × Add a second accent beyond sage, and keep sage rare.
- × Use emoji or stock photography.
- × Slip into corporate filler.
